Haskayne School of Business

ENTREPRENEURSHIP AND INNOVATION

Bachelor of Commerce (BComm)

Entrepreneurship and innovation focuses on the start up and operation of high potential businesses. The key to any successful venture is being prepared, doing your research, and building your knowledge and connections related to your business venture. You’ll complete formal presentations, group projects and various case studies during the course of your degree.

Did You Know?

Since entrepreneurship is best learned through doing, your courses will involve projects that provide hands-on experiences to involve you in all aspects of business development.

Jodi Scarlett

BComm’98, MBA’02

Scarlett is founder and President of ProStar Cleaning and Restoration Inc., which went from being a modest maid service to a full-scale construction firm. Scarlett ranked 50th on the PROFIT 500 list of Canada’s Top Female Entrepreneurs, and Alberta Venture magazine named ProStar one of Alberta’s fastest growing businesses in 2015.

The experience I received leading the Solar Car project was invaluable for helping me understand the collaboration between different fields of expertise. Working in this cross-disciplinary environment gave me the skills to really succeed in building my current IT business. I now have the confidence to sell our services to a range of industries, and deliver on our promises.

Adam B., BComm’07

Entrepreneurship and Innovation focuses on the start up and operation of high potential businesses. The key to any successful venture is being prepared, doing your research, and building your knowledge and connections related to your business venture. You’ll complete formal presentations, group projects and various case studies during the course of your degree.
