Haskayne School of Business

FINANCE

Bachelor of Commerce (BComm)

Finance examines investment banking, financial analysis, financial consulting, planning, and the elements of commercial and corporate finance. Taught in a theory framework, many courses may include cases and current news events to illustrate the theory. Over the course of your studies, you’ll develop your skills using spreadsheet and statistical software, as well as learn how to adapt basic financial principles to the changing business environment.

Did You Know?

The N. Murray Edwards trading lab at the Haskayne School of Business was Calgary’s first trading floor/finance learning environment.

Mark B.
BComm’11

Mark founded, and was president of, the Institute for Sustainable Energy, Environment and Economy Students’ Association (ISEES). After starting in the energy sector as an analyst, he moved into investment banking, investment management and is now at a company that develops software for network monitoring.

Mark graduated with a degree in finance, my career has taken me into public policy. While completing my master’s thesis in public policy, I integrated theory I learned in my finance courses to develop a financial-based analysis of the effects of government intervention on oil sands investment. That would have been impossible without the skills I learned as an undergraduate.

Sunjeet K., BComm’13

View Program Requirements

1. Visit ucalgary.ca/future-students/undergraduate/explore-programs
2. Select your program
3. Select your type of admission (high school or transfer)
