Haskayne School of Business

PETROLEUM LAND MANAGEMENT

Bachelor of Commerce (BComm)

Petroleum Land Management (PLMA) scholars specialize in studying technical and economic considerations in the search for, development, and marketing of oil and gas resources. Over the course of your studies you’ll learn about legal agreement, oil/gas exploration strategy and analysis, PLMA cases, and management of energy regulations. You’ll complete formal presentations, group projects and various case studies during the course of your degree.

Did You Know?

The Haskayne School of Business offers five year combined degree programs in BComm/BKin (Kinesiology), BComm/BA or BSc (Arts) or BComm/BSc (Actuarial Science or Computer Science).

Douglas Errico
BComm’02

Errico is the Vice-President, Land for Kelt Exploration Ltd. He has also had roles as a senior landman and negotiator. Errico has been a sessional instructor at the university since 2007 and is a member of the Canadian Association of Petroleum Landmen.

“This concentration provided me with a great introduction in the oil and gas industry. Classes taught by industry professionals gave me real-life insight to a career in oil and gas. It also provided me with examples of where a career in land management could lead. Professors took the time to answer practical questions and teach concepts that could be applied on the job.

Trevor R., BComm’13
