Haskayne School of Business

SUPPLY CHAIN MANAGEMENT

Bachelor of Commerce (BComm)

Supply chain management involves the management of materials, finances, and information as they move through the entire supply chain from suppliers to producers, wholesalers and retailers to the end user. This program covers diverse topics such as contracts and coordination, negotiation, inventory planning, sustainability, local and global procurement, strategic sourcing, transportation and distribution planning, and warehousing. You’ll complete formal presentations, group projects and various case studies during the course of your degree.

Naheed Nenshi

BComm’93

Nenshi has been the Mayor of Calgary since 2013. He is the first Canadian winner of the World Mayor Prize by the City Mayors Foundation, which he won in 2015.

Supply Chain Management offers a variety of courses, including creative classes like contract negotiations, and courses like data modeling. The classes let me use my organizational, analytical thinking and creative problem-solving skills. It taught me to learn and think strategically once out in the workplace.

Kyra S., BComm’14
